

FRICITION® HIGH TRACTION FLOOR CLEANER

Increases Floor Traction

To get a high gloss appearance, floors such as vinyl, wood or marble are waxed and burnished, but become more slippery as a result. With Friction®, your floors can become *less slippery while enhancing the natural beauty*. It does this by creating a non-film forming treatment that leaves the surface less slippery, both wet and dry.

DETAILS

-Ideal for use on **vinyl, wood, linoleum, high gloss terrazzo, marble, granite, slate, limestone** and **polished concrete**.

-Very effective when used as a cleaner over any floor finish or sealer.

-Increases Slip Resistance on dry and wet floors with a lasting satin finish.

-Does not build up and will not yellow.

-*Not recommended* for kitchens.

FEATURES

-Daily maintenance floor cleaner and degreaser
-Removes grease, soap scum and other build-up
-Recommended on marble or high gloss floor surfaces.

-Increases coefficient of friction (COF) and floor traction, aiding in reducing slip and fall accidents on wet floors.

-Acts like a restorer to produce better gloss on floor finish.

Specifications

Appearance.....	Amber
Odor.....	Sassafras
Boiling Point.....	212°F
pH.....	9.8 - 11.1
Flash Point.....	N/A
Stability.....	One year minimum
Product Code.....	NSF-1151

ORDERING

- Available in 4 gallons per case.
